

AHCBIO203 Inspect and clean machinery, tools and equipment to preserve biosecurity

Delivered by **Expert Training Group** in partnership with **Advanced Driver Training Centre**, This unit describes a participant's skills and knowledge required to inspect and clean machinery and vehicles of material that may contribute to the spread of weeds, pests or diseases.

The unit applies to individuals working in a broad range of job contexts who undertake defined routine activities under supervision. They exercise limited autonomy within established and well known parameters, providing solutions to a limited range of predictable problems.

No other licensing, legislative or certification requirements apply to this unit at the time of publication.

Nationally accredited unit:

AHCBIO203 Inspect and clean machinery, tools and equipment to preserve biosecurity

Please contact **ADTC** on **1300 866 156** or email at **admin@advanceddrivertraining.com.au** for a quotation to provide training for your employees in your company.
