

Recreational 4WD training course

This 4×4 course is designed for private individuals who want to learn to competently drive their four-wheel drive vehicle in a range of terrains. Suitable for either complete beginners, or drivers with some experience who want to take their skills to the next level.

This course consists of an information session followed by a practical session in your 4WD vehicle. The following subjects will be covered:

- Vehicle capability identification
- Vehicle preparation
- Trip Planning

Off Road Driver Training

For this session you will be driving your 4WD vehicle:

- Hazard identification, risk management
- Off road driving techniques
- sand driving techniques
- Obstacle identification
- Identify techniques to negotiate obstacles
- Vehicle placement in rough terrain
- Recovery techniques
